EDUCATION

Bachelor of Science
Software Engineering
California Institute of Technology
2006 - 2010
Pasadena, CA

SKILLS

JIRA
Amazon Web Services (AWS)
Jenkins
TensorFlow
Spring Boot
Apache Hadoop
IDPS
React Native
Selenium
Oracle

WORK EXPERIENCE

Director of Software Engineering

Adobe
2019 - current / San Jose, CA

- Managed cross-functional team on Jira, increasing production velocity by 23%
- Integrated IDPS into systems, which decreased instances of successful socially engineered attacks to less than 1%
- Boosted processes through Jenkins-backed workflows that improved the quality of outcomes by a 54% margin
- **Achieved a 97% Net Promoter Score** and a 4.7 out of 5 rating from end users for error-free end products

Senior Engineering Manager

PayPal
2014 - 2019 / San Jose, CA

- Resolved app incompatibility issues with some mobile devices using AWS, reducing user-reporting incidences by 92%
- Incorporated agile best practices into core processes, which reduced average production cycle time by 17% across projects
- **Decreased mobile app density defects by 31%** by integrating React Native UI elements
- Worked within budget and timelines to deliver user-eccentric solutions and maintained a user satisfaction rating of 94% through customer feedback surveys

Principal Software Engineer

Intel
2010 - 2014 / Santa Clara, CA

- Optimized storage and dataset processing through Apache Hadoop, **resulting in a 47% increase in concurrent user capacity**
- Automated web applications testing across browsers with Selenium that shrank user-reported defects by 68%
- Led a team of 4 software engineers to create and upgrade databases on Oracle with a consistent 98% on-time delivery rate
- Implemented cloud infrastructure optimizations, which decreased monthly hosting costs by 28% and boosted system reliability
