WORK EXPERIENCE

Front-End Developer

Instagram

January 2020 - current / Remote

- Monitored social media and Google SEO analytics to adjust post time, location, and various media to grow target platform by 20,000+ followers in less than a year.
- Created a Mobile Responsive User Experience with CSS Flexbox that allowed cross-platform accessibility to the website on any device with primary use on mobile.
- Built API following RESTful standards to allow users to submit information by storing data in MongoDB.
- Partnered with data science to develop the front end for a product recommendation engine that increased user time on page by 4 minutes.
- Curated over 50 website changes to increase the user flow and understanding of all platform capabilities and features.

Full Stack Software Engineer Intern

Zoom

June 2018 - January 2020 / Pittsburgh, PA

- Developed applications using React while managing the State through Redux and Redux-Forms saving 5+ hours of users' time.
- Designed an integrated database using MongoDB that leveraged the React architecture to yield on-demand, detailed feedback.
- Simplified reporting to deliver actionable information to servers, resulting in multiple servers achieving financial stability by coming in under budget by 2% or more.

Barista

Sentient Bean

December 2014 - January 2018 / Houston, TX

- Took 50+ customer orders and processed payments in a timely and cheerful manner each shift.
- Kept service areas clear and sanitized, and restocked coffee bar 3 times each shift.
- Ordered, received, and sorted domestic and international shipments of small-batch roasted coffee beans.
